

Appliance Rebates for Cooperative Members

\$100
REFRIGERATOR &
FREEZER
REBATE

Lorain-Medina Rural Electric Cooperative is offering rebates to residential cooperative members who replace their existing refrigerators or stand-alone freezers with new ENERGY STAR-certified products*. This rebate is available only to residential members.

Members must purchase and install a new ENERGY STAR-certified product within one year of the rebate request.

SPECIFIC REQUIREMENTS: ENERGY STAR-certified refrigerators and stand-alone freezers (10-30 cubic feet) can qualify for a \$100 rebate* from Lorain-Medina Rural Electric Cooperative when purchased and installed at a location served by the cooperative.

Members are required to provide a copy of the purchase receipt; show proof that the product was installed in a home served by the cooperative; and show proof that the old refrigerator or freezer was disposed of. Members must also include proof of ENERGY STAR certification, such as a copy of the yellow Energy Guide label or owner's manual (must include ENERGY STAR logo or statement of ENERGY STAR certification).

All rebates are issued in the form of a check. A maximum of two rebates per appliance type (two refrigerators or two freezers), totaling \$400, may be paid per residential member home during the current program year.

*Lorain-Medina Rural Electric Cooperative's rebate on refrigerators and freezers is limited. The offer expires when funds are depleted on a first-come, first-served basis, or when the program is discontinued.
